

# The Company

## Who We Are

MIPL was born as a brainchild of Dr Satish C. Gupta in 1989. Since day one, we have focused on the efficacy and quality of our products, to become the undisputed leader of our segments in the ophthalmic industry. Our commitment towards quality is paramount and we believe good healthcare is a right of every human being, which is why manufacturing devices that are 100% reliable through constant progressive innovation is not only our passion but a commitment towards our vision. For three decades, MIPL has been involved in research, innovation, design and manufacturing of high quality products in order to help ophthalmologists across the globe to produce better result for their patients with the utmost satisfaction.

With a proven track record of cutting-edge innovation and a reputation for adhering to the international best practices, quality and reliability, we offer a myriad of ophthalmic devices to ensure patients best care and a hassle free procedure for the doctors. Our key product categories include diagnostic & surgical lenses, keratoplasty devices, ophthalmic diagnostic strips, vitreo-retina devices, cataract blades & specialty devices, fluid management devices, teaching & training ophthalmic devices and ophthalmic cannulas.

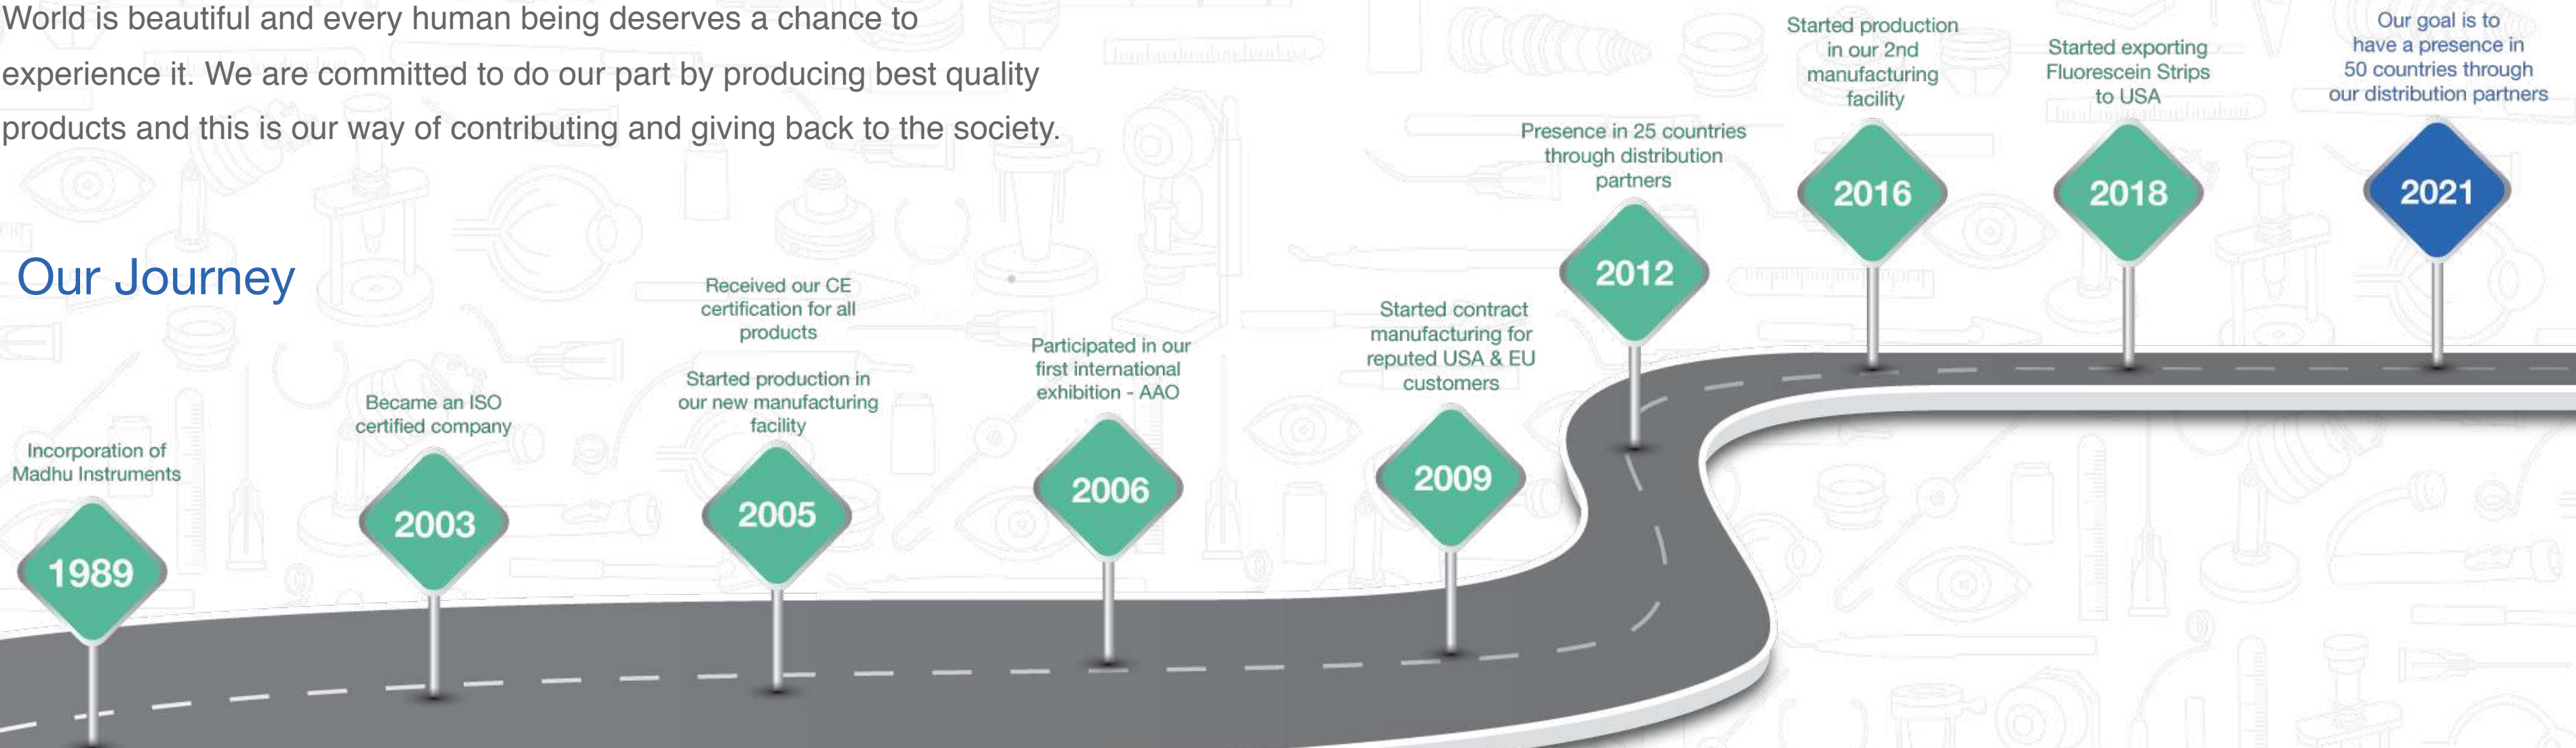

## Mission

We are on a mission to transform the way the ophthalmologists, researchers, students and entire ophthalmic community deals with the challenges faced by them through our reliable and innovative products. World is beautiful and every human being deserves a chance to experience it. We are committed to do our part by producing best quality products and this is our way of contributing and giving back to the society.

## Vision

We manufacture high quality ophthalmic devices which are 100% reliable through constant progressive innovation. We are dedicated towards our vision to help the ophthalmic community improve lives of their patients through our products.

## Our Journey

# Advantages

## 💎 Values & Strengths
